

July 9, 2018

Dear Immaculate Conception School Community:

All Maryland public and nonpublic schools are required to sample all drinking water outlets for the presence of lead pursuant to the Maryland Code of regulations.

We are pleased to say that with the exception of one utility sink in a middle school science lab, all other water sources were within the MDE guidelines.

At this time we are working with our plumbing contractor to rectify this situation as soon as possible and we will notify you once the issue has been resolved.

Please find attached a document with more information about the elevated lead water sample results.

Sincerely,

Madeline M. Meaney  
Principal
